Synopsis: "This British production recreates the life of Srinivasa Ramanujan (Dev Patel), the self-taught Indian mathematician. The film takes a look from his youth in Madras, looking for a job for supporting his wife and mother economically, to the return to his country after spending some time in the United Kingdom. In Cambridge, he worked with Professor G. H. Hardy (Jeremy Irons), who became his friend. His mentor fought against the prevailing racism in the metropolis. He remained in Great Britain from 1914 to 1919, period in which his contributions were recognized and he became member of the Real Society and the Trinity College¹".

Available: DVD, BLU-RAY: Sony Pictures Home Entertainment and Cia S.R.C.: 2016.
